Cleaning for a comfortable environment is an **art** in itself.

Effective

Value

Faster Thorough Cleaning

- Two-way rotating brushes can scrub floor surface and quickly remove dirt, leaving a clean dry floor in one swipe.
- Modular cleaning components for different flooring helps separate areas for cleaning and prevent contamination.
- A cleaning efficiency 8-10 times that of mops.

Relaxing

Experience

An Easier and More Flexible Experience

- User-friendly design throughout use make cleaning easier.
- A digital platform where users can view device status, log, and data analysis report enables easier and smarter control.

Quiet

Magic

Whisper-Quiet Cleaning

- Innovative air channel design ensures hush-hush performance below 60dB and minimal environmental disturbance.

Eco-Friendly

Spirit

Use less, Last longer

- Less water consumption thanks to precise control of water flow in different modes.
- Electrolyzed water with 99.99% of germs killed avoids the use of chemical detergents.
- Optimal system design guarantees lower power consumption and a longer battery life.

Say Goodbye to Wet Floors

A wet floor after mopping has been a thing of the past. Artist 1, with 15kg brush pressure and 8000Pa suction power, can dry floors immediately after cleaning. No more worries about slipping.

Application Scenarios

Restaurants

Hotels

Residences

Offices

Hospitals

manufacturing

Faster Thorough Cleaning

8 Once is Enough
Times Faster Than Mops

15kg

- Brush Downward Pressure
- No More Repeated Mop Cleaning

8000Pa

- Suction Power
- Leave Your Floor Dry Immediately After Cleaning

350rpm

- Brush Speed
- Easily Remove Stubborn Stains

4+1 Modes for Multiple Environments

ECO Mode

- For low dirt level
- Save water and electricity and last longer

Turbo Mode

- For high dirt level
- Effortlessly pick up dirt wherever it goes

Brush-Only Mode

- For periodic cleaning of the heavily soiled floor
- Brush and then vacuum to remove stubborn stains like grease with less effort and more efficiency

Auto Mode

- Smart parameter adjustment based on dirt level
- Make floor cleaning smarter, more energy-efficient and worry-free

Sterilization Mode

- For high-standard floor cleaning
- Comprehensive disinfection with electrolyzed water that kills 99.99% of germs

An Easier and More Flexible Experience

Flexible Edge Cleaning

- Leave no edges and corners behind

360°

Low Space Cleaning with Ease

- More flexibility in operation
- To reach more low-to-the-ground space

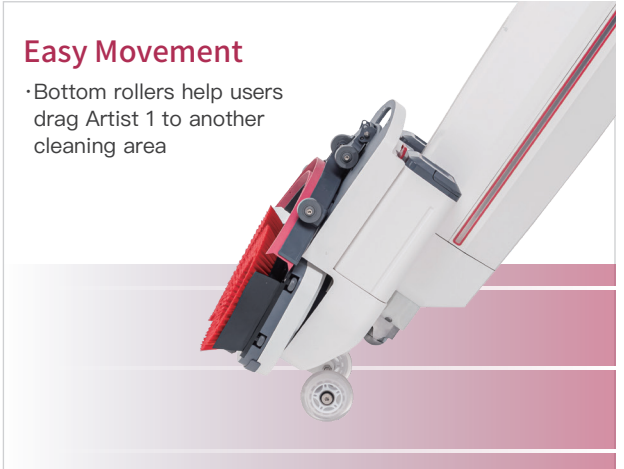

2 Auxiliary Support Angles

- For users of different heights
- To clean large spaces with less effort

Easy Movement

- Bottom rollers help users drag Artist 1 to another cleaning area

Effortless Operation

- Just click and push

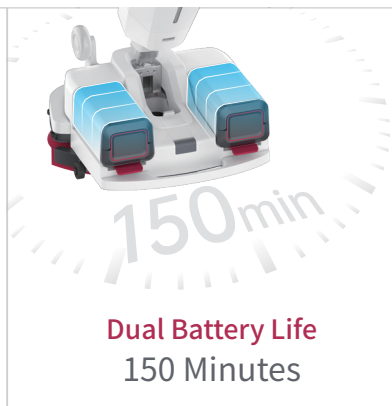

Whisper-Quiet Cleaning

Use less Last longer

Work Magic with A Bottle of Water

500ml water for 70m²
4L water for 450m²

*The data listed above are obtained in ECO Mode. The battery life depends on the actual situation.
